

# Do you know about the Nursing and Midwifery Genomics Framework?

**"Genomics is transformative in driving our knowledge and understanding of health and illness forward, enabling earlier and faster diagnoses and treatments...**

**This Nursing and midwifery genomics framework illustrates how nurses and midwives should be enabled and empowered to adopt genomics into their clinical practice."**

*Professor Dame Sue Hill, Chief Scientific Officer for England and Senior Responsible Officer for Genomics in the NHS*

## **The framework has four strategic aims:**

1. Integrate awareness of genomics as part of nursing and midwifery practice
2. Identify nursing and midwifery genomics workforce needs
3. Build and join networks
4. Educate and develop the nursing and midwifery workforce
